

RISHI KUMAR

Backend Software Engineer

Noida, India || +91 7838776066 || rishikm215@gmail.com

SUMMARY

I am a Computer Science undergraduate with strong backend engineering fundamentals and hands-on experience building secure, scalable RESTful services using Node.js, Express.js, and MongoDB. Experienced in authentication, data modeling, and deploying production-ready applications. Focused on clean architecture, reliability, and system scalability.

TECHNICAL SKILLS

- **Programming Languages:** Java, JavaScript, Python, C++,
- **Backend:** Node.js, Express.js, RESTful APIs, JWT-based Authentication
- **Frontend:** React.js, HTML, CSS, Tailwind CSS, Bootstrap, Responsive Design
- **Databases:** MongoDB (Schema Design, CRUD, Indexing)
- **Tools & Platforms:** Git, GitHub, Vercel, Railway, Render, Postman

PROJECTS

SYRANX | AI Conversational Platform

- Developed a full-stack AI text-based chatbot with persistent memory and thread-based context management.
- Implemented secure backend APIs using Node.js, Express.js, and MongoDB to handle authentication and message storage.
- Implemented JWT-based authentication to secure APIs and isolate user data.

ROOMORA | Travel Places Monitoring Platform

- Developed a full-stack web-based platform to monitor places and reviews for travel and vacation planning.
- Implemented backend APIs using Node.js, Express.js, and MongoDB with custom error handling and structured validation.
- Designed secure authentication and authorization workflows to protect application data.

POR

Core member in GDG on campus

- Worked as a key member of the web development team in the Google Developer Group on my campus contributing to conducting technical workshops and mentoring students

ACHIEVEMENTS

- Lead teams in 5x hackathons.

EDUCATION

Bachelor of Technology CSE

Mahatma Gandhi Mission's College of Engineering and Technology, Noida

- Current CGPA: 8.2 | Year: 2nd
